

Help us build a new playground!

There's an exciting new playground design on the way for Ilkley Riverside Park...

SITE OVERVIEW

What's the plan?...

Bradford Metropolitan District Council have committed £150,000 which will deliver phase 1 of the renovation by March 2022. This will include the majority of the infrastructure, the younger years play equipment, sensory and accessible play, and two new zip wires.

We need your support...

Friends of Ilkley Riverside Parks are fundraising to add a giant 'WharfeWave' rope swing and a fantastic 'Ilkley Moor Climb' tower to the new playground. These would offer exciting play opportunities for older children, which the park currently lacks, and will give the playground a real wow-factor.

KOMPANI

How you can help

The cost to deliver phase 2 is £90,000

Friends of Ilkley Riverside Parks are inviting sponsors, individuals, schools and local groups to contribute to this exciting new development in the park.

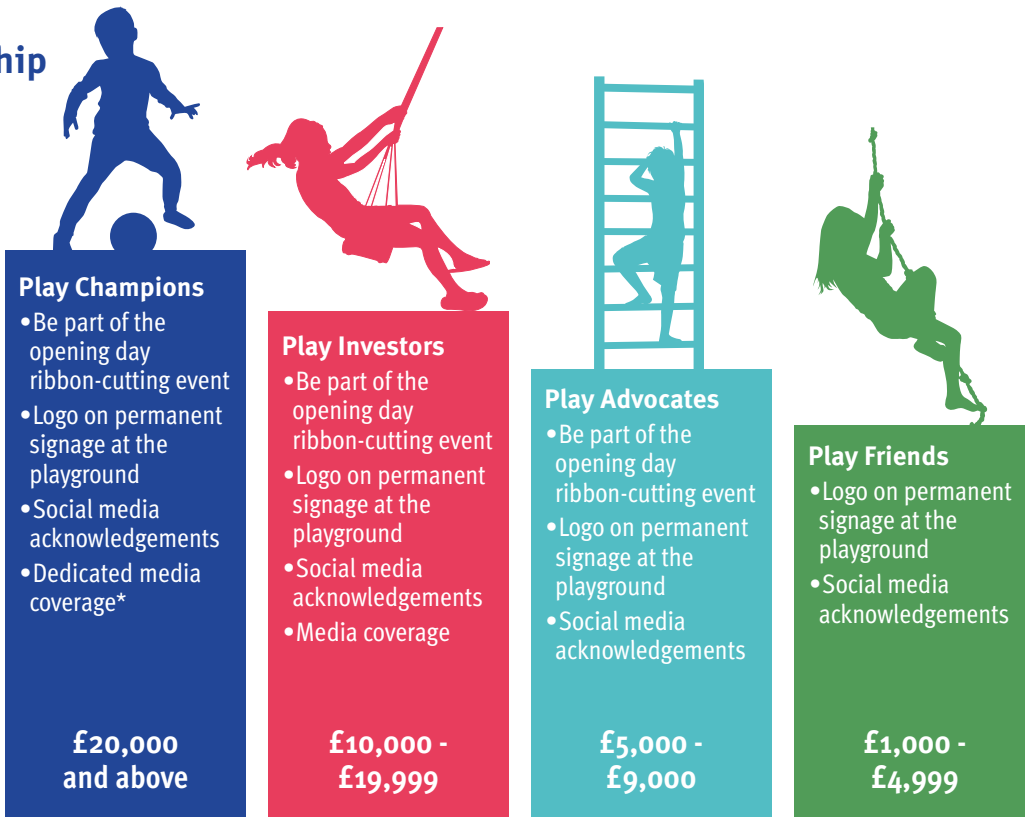

In an overly scheduled and busy world that is dominated by media and screen time, children need to play in safe space that challenges them as they grow. Play is a dynamic, active and integral part of children's growth and development, and is the foundation for all learning in our lives.

Your contribution will benefit tens of thousands of children and will make a lasting impact, giving a new lease of life to the playground for the next 30+ years.

Here's a visual of the proposed play equipment that your sponsorship will help us to make a reality.

Sponsorship levels

*Media coverage and sponsorship benefits can be discussed to suit sponsor requirements or specific sponsor requests.

Friends of Ilkley Riverside Parks are also looking for donations/contributions towards;

- Entrances/arches
- Benches and seating
- Planting and trees
